

Sun Prairie Area School District

School Board Meeting Summaries

At our School Board meeting on Monday Dec 2, 2019, the Board accomplished many tasks

- The board received their annual update in enrollment projections from UW Applied Population Lab. Enrollment has increased from 6,886 students in 2010-11 to 8,492 students in 2019-20. Enrollment is expected to continue to grow.
- The board received an update from Dr. Chris Sadler, Director of HR on how the department is doing. We are always happy to hear the positive direction that we are moving in.
- The Board and Finance team had a discussion about some of the bigger initiatives that will be happening next budget year. These include \$500,000 for teacher compensation as well as \$340,000 for the opening of our much anticipated employee health clinic.
