Futures depend on us...every child, every day.

Board of Education Proclamation in Recognition of Kindness

Whereas, the Sun Prairie Area School District celebrates day long Kindness Retreats at all nine of our elementary schools for fourth grade students during the months of January and February; and

Whereas, Kindness Retreats engage students in activities that demonstrate the powerful value of being kind and building a more caring community while reducing bullying in our schools; and

Whereas, we proudly partner with the Sun Prairie Rotary Club and the Sun Prairie Education Foundation, volunteers and many other very generous sponsors to make the retreats possible which have allowed over 5,000 Sun Prairie students to date to experience a Kindness Retreat; and

Whereas, the School District joins the City of Sun Prairie in extending the kindness initiative beyond the retreats and creating a culture of kindness that will be celebrated city-wide.

Now Therefore, the Sun Prairie Area School District Board of Education calls upon our students, staff, and community to join together to help spread kindness and encourage acts of kindness locally, to create acts of kindness, to pay it forward and to recognize that kindness can be much more transformative than bullying.

In Witness Whereof, the undersigned being all of the members of the Board of Education of the Sun Prairie Area School District have executed this resolution this 11th day of February, 2019.
